Dear Frederic,

RE: Kit, guide & method for locating distal femur resection plane

Further to our telephone conversation on 25th June 2003, please see the enclosed US patent application specification and slightly amended assignment/power of attorney documents for the above non-provisional application.

I have spoken to Stephen Manich (US Patent Attorney – DePuy, Warsaw) about your proposal to remove your name from the application altogether, however this is not possible under US law. Minutes of meetings and correspondence clearly show you contributed to the invention being claimed and such there is an obligation to recognize you as an inventor.

I would be extremely grateful, following your review of the specification, if you could sign both the assignment and power of attorney forms and return them in the envelope provided.

Please feel free to contact me if you wish to discuss this matter further. My direct number is 0113 387 6126 and my mobile number is 07967 390122.

Yours sincerely
